exciting flora and fauna.

In a micro world, this well maintained campus witnesses a collection of awesome species. The green campus invites a spectrum of animals and insects. The car parks are named after flowering trees to indicate the

vibrant and captivating campus. During the dry season when all the grasses are yellow and crispy, the beautiful blooms of angsana and flame of the forest brightened up IPDA into an irresistable eye-catcher. The fragrance of frangipani, of white and pink floats on the gentle breeze of unspoilt air, eventhough the highway and a few factories are nearby. If we have time to wander and wonder, then we will realize that

there are so much to be appreciated in this exciting campus. We should try as much as possible to keep the beauty and

enchantment in IPDA to thrive. We must make sure that the greens and the minds come together to produce excellent teachers, now and forever.
